CONCEPT & PRODUCTS

Concept and products capability is manifest in the ability to develop a project from the design stages to the complete metal manufacturing. Limited Edition Sculptural Artworks, replica cannons and specialty bronze boat parts are the product categories. Lost wax investment bronze, copper Repousse, Vacuum casting of silver and precious metals and resin-sand are the principal methods of metal production.

In house customers are the Lafayette River Boat Building and Bronzes from the Sea.

Lafayette River Boat building is housed at the same location at 1046 West 24th Street in Norfolk, VA. Owned by Joseph F. Filipowski, the facility which produces wooden boats is expanding it's services to the Hollywood Film Industry and will be producing full sized replica historic boats which will require replica cannons and bronze boat fittings.

Bronzes from the Sea is Osmundsen's own continuing line of limited edition bronze and sterling sculptures. Recent projects include "The Voyage of the Fox" which will be a major bronze monument with limited edition bronze replicas.
